

MISSION-VISION

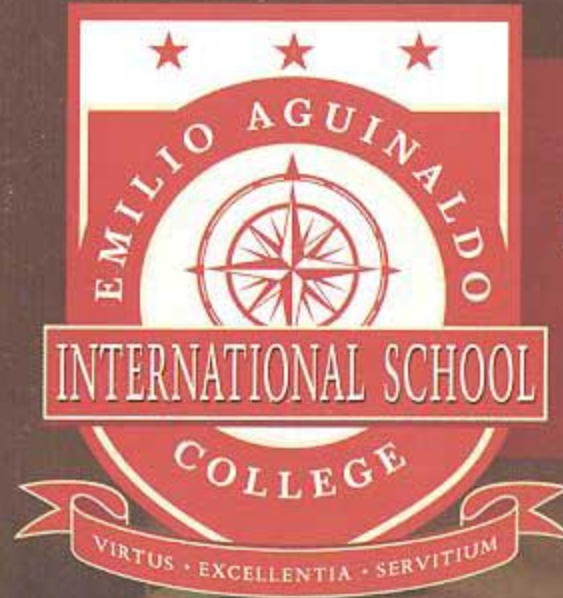

Aguinaldo International School (AIS) envisions itself to provide the highest possible standard in international education that meets the requirement of colleges and universities worldwide.

AIS is aimed at developing a total person with intellectual, emotional and social capacities to adapt to the changing social milieu.

AIS seeks to provide an environment that promotes responsibility and enlightened citizenry as well as respect for the cultural heritage of other nationalities in the academic arena.

AIS promotes strong educational programs that are based on the best of the world's proven teaching pedagogy, providing a wide range of educational experience that will prepare students for a meaningful engagement in a world that is constantly changing.

Finally, AIS provides opportunities that encourage the development of knowledge and critical thinking needed to become life-long learners in the global community.

VIRTUS • EXCELLENTIA • SERVITIUM

"Education is the most powerful weapon which you can use to change the world."

-- Nelson Mandela

Teaching Program

Aguinaldo International School (AIS) offers a program of instruction which conforms to best international practices. An interactive, student-centered teaching approach is followed to encourage the development of critical thinking skills and a positive attitude to life-long learning.

AIS follows the American Grading System and the medium of instruction is American English. All student textbooks are imported from the United States.

Course Offerings

AIS offers Grades 1 to 12 classes (lower, middle, upper school), for ages 6-18. Class sizes are limited to a maximum of 20 students for a more focused interaction between teacher and student.

Student-centered approach

Students can easily develop a rapport with their teachers and can look to them for support, whether about school or personal concerns. In effect, students become more in touch with their individual strengths and interests, with the guidance of their day-to-day mentors.

Upscale Facilities

AIS is equipped with modern classrooms, science, computer and speech laboratories, entertainment room, and library.

The seven-floor Sports and Cultural Center is a huge facility that houses an Olympic-size swimming pool, gymnasium, basketball court and a state-of-the-art theatre.

The school is located adjacent to a long established, well equipped, modern hospital, the Medical Center Manila, whose facilities and personnel can be quickly accessed in the event of an emergency.

English Tutorial

AIS has designed an English Learning program for non-English speaking students in coordination with the Emilio Aguinaldo College Languages Department.

Security and Safety

While all buildings have their own on-site security personnel, the school is also strategically located near the Western Police District Head Office.
